

## **AMSC 2021 Club Championships Round 9 – 6 November 2021**

This was the final round of the 2021 Club Championships. Whilst the Men's competition was all but decided before a toe even entered the water, the tussle for top spot in the Women's competition was tight. A certain gentleman was again observed to be swimming breaststroke... perhaps he was feeling unwell, or perhaps he has hatched a cunning master plan for the 2022 competition?

For those who don't know, the Club Championships is not about being the fastest swimmer in the club – or even your age group. Points are awarded based on how well you swam that day in comparison to your previous times (both personal best and previous year) for that stroke and distance. It is a friendly competition rewarding consistency, effort and having a go.

Two events were on offer – 100m and 100m choice, providing each was a different stroke.

Congratulations to Shaun Williams with two club records in the 100m freestyle and 100m fly.

Top point scorers were... now if I told you, that would rather ruin the surprise at presentation night!

Who will reign supreme and lift the trophy at presentation night? Stay tuned...
